# Energy performance certificate (EPC)

| | | | |
|---|---|---|---|
| 31, Brynbala Way<br>Rumney<br>CARDIFF<br>CF3 1SY | Energy rating<br>**D** | Valid until: | **2 June 2025** |
| | | Certificate number: | **8675-7226-2250-4117-5902** |

## Property type

End-terrace house

## Total floor area

92 square metres

### Rules on letting this property

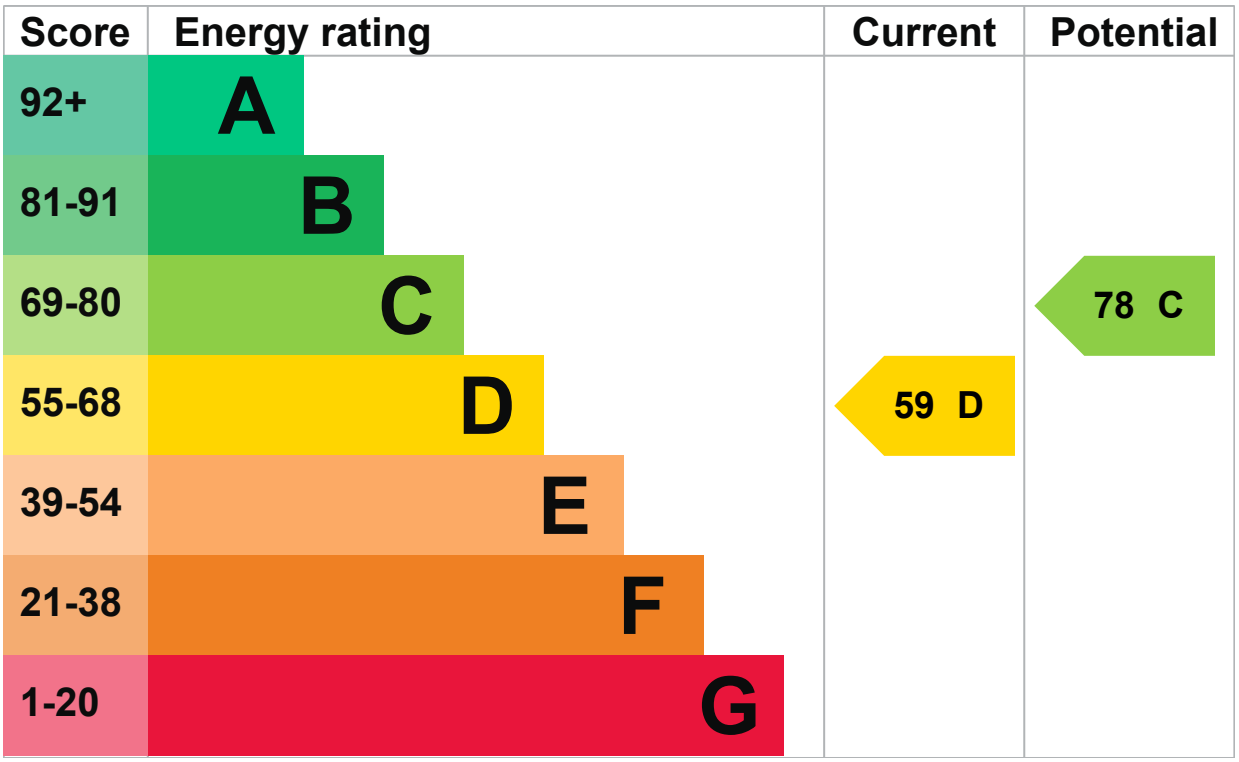
Properties can be let if they have an energy rating from A to E.

You can read guidance for landlords on the regulations and exemptions (https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

### Energy rating and score

This property's current energy rating is D. It has the potential to be C.

See how to improve this property's energy efficiency.



The graph shows this property's current and potential energy rating.

**Properties get a rating from A (best) to G (worst) and a score.** The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

**Breakdown of property's energy performance**

# Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

| Feature | Description | Rating |
|---|---|---|
| Wall | System built, as built, no insulation (assumed) | Very poor |
| Roof | Pitched, 270 mm loft insulation | Good |
| Window | Fully double glazed | Average |
| Main heating | Boiler and radiators, mains gas | Good |
| Main heating control | No time or thermostatic control of room temperature | Very poor |
| Hot water | From main system | Average |
| Lighting | Low energy lighting in 50% of fixed outlets | Good |

| Feature | Description | Rating |
|---|---|---|
| Floor | Solid, no insulation (assumed) | N/A |
| Secondary heating | Room heaters, mains gas | N/A |

# Low and zero carbon energy sources

Low and zero carbon energy sources release very little or no CO2. Installing these sources may help reduce energy bills as well as cutting carbon emissions. The following low or zero carbon energy sources are installed in this property:

- Solar photovoltaics

# Primary energy use

The primary energy use for this property per year is 290 kilowatt hours per square metre (kWh/m2).

▶ About primary energy use

# Additional information

Additional information about this property:

- PVs or wind turbine present on the property (England, Wales or Scotland)
  The assessment does not include any feed-in tariffs that may be applicable to this property.
- System build present
- Dwelling may be exposed to wind-driven rain

### How this affects your energy bills

An average household would need to spend **£1,306 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £492 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2015** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

---

# Heating this property

Estimated energy needed in this property is:

- 13,028 kWh per year for heating
- 2,200 kWh per year for hot water

### Impact on the environment

This property's current environmental impact rating is E. It has the potential to be C.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year. CO2 harms the environment.

# Carbon emissions

## An average household produces

6 tonnes of CO2

## This property produces

4.8 tonnes of CO2

## This property's potential production

2.3 tonnes of CO2

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

**Changes you could make**

▶ Do I need to follow these steps in order?

## Step 1: Floor insulation (solid floor)

### Typical installation cost

£4,000 - £6,000

### Typical yearly saving

£59

### Potential rating after completing step 1

**62 D**

## Step 2: Low energy lighting

### Typical installation cost

£25

### Typical yearly saving

£22

### Potential rating after completing steps 1 and 2

**63 D**

## Step 3: Heating controls (programmer, room thermostat and TRVs)

Heating controls (programmer, thermostat, TRVs)

### Typical installation cost

£350 - £450

### Typical yearly saving

£181

### Potential rating after completing steps 1 to 3

69 C

## Step 4: Replace boiler with new condensing boiler

### Typical installation cost

£2,200 - £3,000

### Typical yearly saving

£202

### Potential rating after completing steps 1 to 4

78 C

## Step 5: Flue gas heat recovery device in conjunction with boiler

### Typical installation cost

£400 - £900

### Typical yearly saving

£26

### Potential rating after completing steps 1 to 5

78 C

## Help paying for energy improvements

You might be able to get a grant from the Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme). This will help you buy a more efficient, low carbon heating system for this property.

**Who to contact about this certificate**

## Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

**Assessor's name**
Antony Hill

**Telephone**
07702676089

**Email**
tony@thomas-eco.co.uk

## Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

**Accreditation scheme**
Sterling Accreditation Ltd

**Assessor's ID**
STER450025

**Telephone**
0161 727 4303

**Email**
info@sterlingaccreditation.com

## About this assessment

**Assessor's declaration**
No related party

**Date of assessment**
3 June 2015

**Date of certificate**
3 June 2015

**Type of assessment**
- RdSAP

### Other certificates for this property

If you are aware of previous certificates for this property and they are not listed here, please contact us at dluhc.digital-services@levellingup.gov.uk or call our helpdesk on 020 3829 0748 (Monday to Friday, 9am to 5pm).

## Certificate number

0724-2810-7275-9224-4545 (/energy-certificate/0724-2810-7275-9224-4545)

## Valid until

20 March 2024
